OUR COMPANY

Local experience. Practical coordination.

J Traders supports construction and infrastructure work across Kerala through tipper transportation, loading coordination and recurring material movement.

Based in North Paravur and led by Jithin V, we draw on a large transport network to match vehicle arrangements to client needs. We also help customers find suitable material sources; J Traders does not supply materials.

20+

YEARS IN BUSINESS

OPERATING BASE

North Paravur, Ernakulam

OWNER

Jithin V

WHO WE SUPPORT

Builders & developers

Residential, commercial and mixed-use projects.

Civil contractors

Transport support for earthwork, utilities and civil works.

Infrastructure projects

Material movement for roads, bridges and public works.

Material suppliers

Transport from supplier yards to project locations.

Quarries & crushers

Movement of bulk materials from source to site.

Individual project owners

Transport for private construction requirements.

OUR SERVICES

Transport support, from source to site.

Choose support around the material, route, loading arrangements and project schedule.

01 Tipper transportation

Transport for construction materials and other goods suitable for tipper vehicles, arranged around route, quantity and access.

02 Loading & unloading coordination

Support to coordinate pickup, loading and unloading. Equipment and labour responsibilities are agreed for each job.

03 Project transport support

Single or recurring movements, with vehicle arrangements drawn from our large transport network to suit project needs.

04 Material sourcing assistance

Help finding suitable material sources for the requirement. J Traders provides sourcing assistance and transportation, not material supply.

AGREE THE SCOPE BEFORE MOVEMENT

Confirm transport, sourcing assistance and loading support required for your job.

MATERIALS HANDLED

Bulk materials for construction sites.

Material type, size, quantity and destination requirements guide each transport arrangement.

Sands

M-sand and river sand.

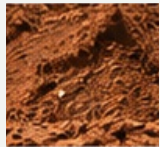

Aggregates & crusher materials

Gravel and crushed stone in required sizes.

Quarry materials & stones

Quarry-sourced stone and construction materials.

Soil & filling materials

Soil, earth and material for filling work.

Road-base materials

Materials for road sub-base and construction.

Rubble & construction debris

Transport associated with demolition and site clearance.

Transport and sourcing assistance: J Traders does not supply materials. Other goods suitable for tipper transport can be discussed based on their type, loading needs and route.

COVERAGE & PLANNING

Based in North Paravur. Serving Kerala.

OUR OFFICE

North Paravur

Ernakulam, Kerala

SERVICE COVERAGE

Construction material movement across Kerala, subject to route feasibility, site access and vehicle availability.

LARGE TRANSPORT NETWORK

Vehicle arrangements can scale with client needs, with allocation confirmed for the route and schedule.

Every movement has three checkpoints.

01

SOURCE

Material readiness, pickup access and loading arrangements.

02

ROUTE

Route conditions, travel requirements and vehicle suitability.

03

SITE

Entry access, unloading location and receiving schedule.

Single trips and recurring transport are planned around the agreed route and site timetable.

OUR MAJOR PROJECTS

Experience across different project needs.

Material transport and site movement support for varied project requirements.

PROJECT / ORGANISATION	SCOPE SUPPORTED
Cochin Shipyard	Material transportation
L&D	Project material support
Afcons Infrastructure Limited	Earthwork transportation
Aluva New Cricket Stadium	Soil removal

Transport support across construction, infrastructure and site preparation.

HOW WE WORK

From requirement to delivery.

A clear sequence helps align materials, vehicles and site readiness.

1

Share the requirement

Tell us the material, quantity, pickup point, delivery location and required timing.

2

Check the movement

Review the route, source access, receiving-site conditions and loading needs.

3

Confirm the arrangement

Agree the scope, quotation, responsibilities and schedule before dispatch.

4

Coordinate & dispatch

Arrange loading and vehicle movement according to the confirmed plan.

5

Deliver to site

Coordinate arrival and unloading with the receiving site as agreed.

6

Plan further trips

Review the next requirement and align recurring movements with project progress.

A named contact, clear locations and a ready receiving site help reduce avoidable coordination delays.

ENGAGEMENT OPTIONS

Support for a trip, a phase or a project.

Choose the arrangement that matches the frequency and duration of your requirement.

Single trip transport

One material movement between a defined pickup point and destination.

Scheduled daily movement

Recurring trips aligned with site progress and material readiness.

Short term project support

Transport for a defined phase of earthwork, filling or civil construction.

Ongoing logistics support

Recurring transportation for suppliers, contractors and extended projects.

WHAT INFORMS THE QUOTATION

Route and distance / Material type and quantity / Trip frequency / Vehicle allocation / Loading arrangements / Required schedule

Commercial terms and pricing are agreed for the specific requirement.

SOIL PURCHASE & TRANSPORT

Suitable soil. Confirmed demand. Agreed terms.

J Traders supports soil purchase and transportation where a receiving buyer has confirmed demand and the material is suitable for the intended requirement.

PURCHASE BY AGREEMENT

Where buyer demand and agreed conditions are in place, J Traders may pay for suitable soil per load.

Purchase is conditional on inspection, suitability, pricing and the agreed transport arrangement.

01 Inspect the source

Review soil type, estimated volume and suitability.

02 Confirm buyer demand

Check the receiving requirement and delivery timing.

03 Agree price and responsibilities

Set the per-load terms and confirm excavation, loading and transport arrangements.

04 Arrange transportation

Coordinate movement to the agreed receiving site.

J TRADERS

GET IN TOUCH

Share your next transport requirement.
